Accommodation				38 (100%)
Meeting rooms and facilities				38 (100%)
Social events			5 (13,2%)	33 (86,8%)
Food services				38 (100%)
Local transport			6 (36,8%)	32 (84,2%)

9. Comments:

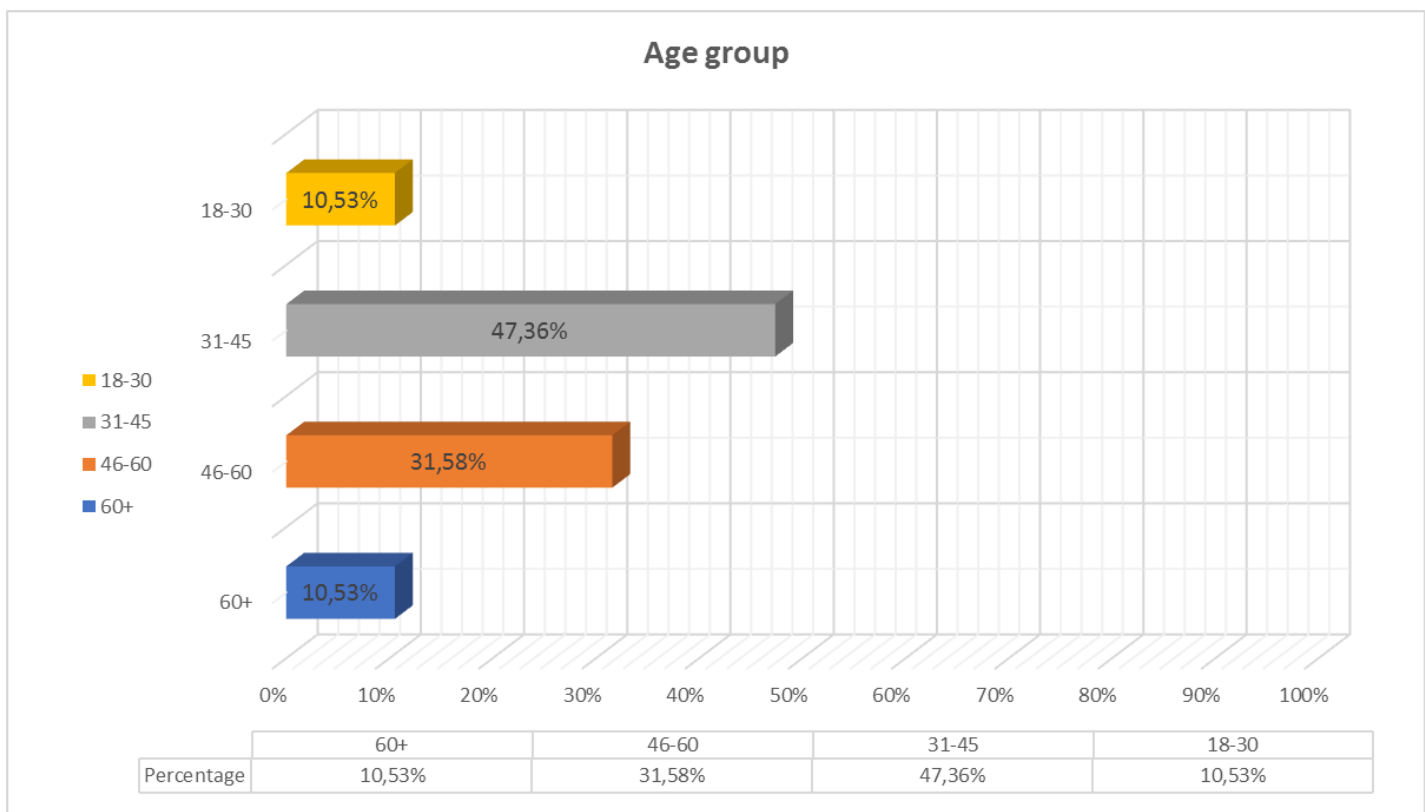

Many participants of the project „ **INNOVATIVE ICT EDUCATION FOR SOCIAL -ECONOMIC DEVELOPMENT (IESED)** internship “*INNOVATIVE STUDY METHODS*” which took place in University of Economy in Bydgoszcz, Poland express many thanks to the organization for the training in this event. The content of the internship was innovative and effective with a great outcome of ideas to enable teachers to better understand IT study methods and teaching forms. A great level of high professionalism was admired. The team of experts was qualified and professional. Also participants mentioned that the materials, practical exercises and interactive classes, which were given, gave more information and enlightened the participants to apply different study methods to the study process more effectively. The participants admitted that the introduced innovative teaching methods will help the teachers of Belarus HEIs to improve the level of their competence and acquire more experience from the experts of the EU universities to adapt useful information in their organizations. Good practical examples were appreciated by the participants of the internship.

The participants confirmed that overall level of the organization of the internship was excellent. They appreciated the attitude and atmosphere of the communication. There also was an opinion that more practical approach and discussions would be useful.
